REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: claims 1 and 3 are patentable over the prior art patents and printed publications because of the specific clock generating circuit implemented in an image forming apparatus, the circuit including a digital delay dot clock adjusting section to generate first dot clock pulses having a predetermined number of pulses within a predetermined time interval at a constant exposing range of the image writing section so as to make a correction against a deviation expansion or contraction, wherein each period of said first dot clock pulses is slightly reduced or increased by changing a successive selection for a plurality of delayed clock pulses of slightly different delay times, and a jitter suppressing section to suppress a jitter component included in said first dot clock pulse, wherein the jitter suppressing section divides said first dot clock pulses to generate second dot clock pulses and then multiplies said second dot clock pulses to generate said dot clock pulses. The combined limitations as currently claimed are not taught by the prior art of record alone or in combination.

Claims 2 and 4-6 are allowed because they are directly or indirectly dependent from claims 1 and 3 above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hai C. Pham whose telephone number is (571) 272-2260. The examiner can normally be reached on M-F 8:30AM - 5:30PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Stephen D. Meier can be reached on (571) 272-2149. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
